Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver free of charge.

The ASAM Treatment of Opioid Use Disorder Course covers all evidence-based practices and medications for treating patients with opioid use disorder. *This course is designed for women's healthcare providers.*

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Physicians, nurse practitioners, physician assistants, and healthcare team members working with patients with opioid use disorder.
- Physicians, nurse practitioners, and physician assistants who wish to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorder.

Course Format:

- Blended – four hours online, four hours live
 - Four hours of self-paced online learning
 - Four hours of live learning on September 27, 2019 in Elkridge, MD

Course faculty are expecting learners to complete the first portion of the course before attending the live portion. This 4 hour online/4 hour live blended training satisfies eight hours of education requirements for providers to qualify for a DEA DATA2000 waiver. NPs and PAs can qualify after completing an additional 16 hours provided by ASAM free of charge.

The American College of
Obstetricians and Gynecologists
WOMEN'S HEALTH CARE PHYSICIANS

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.
